

A reminder from the Strawberry Fire Protection District to all interested homeowners.

The Strawberry Volunteer Fire Dept. has asked Sonora Fire and Safety to be at the SPOA meeting to do a brief demonstration on the proper use of fire extinguishers. They will also be available to test and fill your home extinguisher. The cost for inspecting and testing fire extinguishers is \$15.00. If your extinguisher needs to be recharged there will be an additional fee. Sonora Fire and Safety will also have new extinguishers for purchase. The cost for a new extinguisher runs from \$46.50 (5 lbs.) to \$102.00 (15 lbs.).

Also on hand will be information regarding house numbering. It helps emergency responders find you quickly if your address is clearly visible.

Last but not least, we will have the ever popular and highly in demand, Strawberry Volunteer T-shirts and hats for sale. This year we have a new design and color so plan on getting yours before they're gone!

See you at the SPOA picnic and meeting
